It has been one thing after another I feel like since May and I am hoping for a breakthrough as I strive to be the best mom I can ever be for my children and provide and give them the best life possible and more than I ever had. God has seriously held my hand through this season and has walked alongside of myself and my boys and I know that there is a reason for everything, I just am praying to have a light at the end of the tunnel and see the reason for all of the hard, "storm" moments that we have experienced this year. I try to not ever let the storm get my children wet and make it seem as if they have nothing to worry about and that I will always "make it happen" however, at times it is so hard to be strong by yourself when you have no help and not much family either therefore, I ask to pray for my strength and that God continues to show and give that to me.

Robert	I would be incredibly grateful for prayers for myself and my three beautiful children. I am currently going through one of the most difficult seasons of my life as a father. I have been fighting a long and emotionally exhausting custody battle, and my greatest prayer is that God will open the doors for me to be reunited with my children and become the present, loving father they deserve. I ask for prayers for strength, patience, wisdom, and peace as I navigate the legal challenges and financial hardships that have come with this journey. Between working hard to support myself, paying attorney fees, and trying to maintain a stable home for my children, there are days when the weight of everything feels overwhelming. Please pray that God will provide financial stability, help me maintain my housing, guide those making decisions concerning my children, and bring healing to the relationships that have been strained throughout this process. Most importantly, please pray for my babies. Pray that they feel loved, protected, and never question how much their daddy loves them. I pray that God watches over their hearts and minds and that, in His timing, our family can experience healing, restoration, and peace. Despite everything, I am thankful that God continues to give me the strength to get up every morning, work hard, and keep moving forward. My faith reminds me that even when I cannot see a way through, God is still working. I am not asking for an easy road, just the strength to keep walking it and the opportunity to be the father my children need. Thank you to everyone at CCM for your kindness, compassion, assistance, and willingness to pray for people like me during difficult times. Your support means more than you know. God bless you all.

Whitney	I am a single mother of three children and the primary caregiver responsible for maintaining our household and providing for their everyday needs. Since my divorce, I have been working to establish financial stability for myself and my children, but it has been incredibly difficult to manage everything financially on my own. Although I receive financial support, it has not always been consistent, and the cost of maintaining our household continues to exceed what I can comfortably afford. Between my mortgage, utilities, groceries, transportation, insurance, and my children's needs, there is very little remaining for unexpected expenses or emergencies. Unfortunately, I have also been faced with several significant and necessary home repairs. My home was built in 1960 and has several broken, single-pane windows that allow outside air and moisture inside. I have temporarily covered the damaged windows with plastic and tape because I cannot afford to replace them. My shower has been unusable since January, and I am now facing a $700 repair. I was also recently informed that my water heater has significant issues that may present a safety concern and needs to be replaced, with an estimated cost of $2,300. These are not improvements or cosmetic repairs. They are necessary expenses related to keeping my home safe and functional for my children. Unfortunately, the financial strain of these situations has made it increasingly difficult to keep up with our regular household obligations. I have spent considerable time researching assistance programs, looking into financing options, and trying to find affordable solutions. I have also been actively working toward improving my employment and financial situation so that I can become more financially independent. Asking for financial assistance is not something I take lightly. I am doing everything I can to provide a stable, safe, and secure home for my children, but I have reached a point where I simply cannot manage all of these expenses without some help.
